### Undergraduate Research & Creative Activities at MSU

Undergraduate research experiences at Michigan State University are broadly defined to include scholarly, creative, and artistic activities that lead to new knowledge, improve problem-solving capabilities, offer original or historical theory and interpretation, and/or produce art or creative performances. A collaborative effort between students and their research mentors, undergraduate research and creative activities are interactive, discovery-based experiences that teach and engage students about the numerous components involved in the research and creative process. Research and creative opportunities occur in and outside of the formal curriculum.

The links below can be used to navigate to the specific modules designed for undergraduate research and creative activities at MSU. The Undergraduate Research Experiences (URE) module provides a space for students and mentors to track individual or group project experiences. The University Undergraduate Research & Arts Forum (UURAF) and the Mid-Michigan Symposium for Undergraduate Research Experiences (Mid-SURE) each have their own modules for student registration as well.

# MID-SURE

MID-MICHIGAN SYMPOSIUM FOR UNDERGRADUATE RESEARCH EXPERIENCES

Welcome to the Mid-Michigan Symposium for Undergraduate Research Experiences (Mid-SURE). Mid-SURE is an opportunity for undergraduate students to present results or information from their summer research experiences in a poster format. All posters must be developed in collaboration with a faculty research mentor. In order to participate in Mid-SURE, you must follow the registration process to submit your poster information for consideration.

**Information Required to Register**

- Coordinating Presenter (designated student who will be responsible for presentation). By clicking "Add Mid-SURE Presentation" your name will be automatically connected to your presentation.
