

Mid-SURE FAQs: Faculty

I am a faculty member and I received an email stating that a student indicated I was their research mentor. Why did I receive this email?

Students must indicate a research mentor on their application for presenting their project. You were included in the application for a student who has submitted a proposal for Mid-SURE (Mid-Michigan Symposium for Undergraduate Research Experiences). Please contact the student and the Office of Undergraduate Research (ugrsrch@msu.edu) as soon as possible if you were unaware of this submission.

Can I view or edit my student's Mid-SURE application?

Yes. MSU faculty, staff, and graduate students can log-in and view Mid-SURE presentations they are connected to. Please check out our step-by-step resource [here](#).
